

# Wave Your Girl Scout Flag!

Semaphore is a method of visual signaling using flags. Before the invention of the telegraph, semaphore signaling from high towers was used to transmit messages between distant points. Join us in learning how to signal a fun birthday week phrase!

---

## GIRL SCOUTS FUN FACT

---

Did you know that Juliette Gordon Low received a U.S. design patent No. 45, 234 on February 10, 1914 for the trefoil, worn as a badge for the Girl Scouts.
